ishant jain

Student

Prolific student seeking an opportunity who have a basic knowledge of various statistical methods, including descriptive and influential statistics. Learned and implemented several machine learning models and used various tools such as Excel and Tableau for data analysis. Learned basic mobile and web development and implemented some basic projects using android studio and visual studio code.

EDUCATION

B Tech
Vellore institute of technology,AP

07/2019 - 07/2023   *8.49 CGPA*

PROJECTS

DataCleanML
github ☐

Tasks
- Found out the future scope of study and tried to implement it using **15**+ datasets.
- Implemented **5** types of error detection and error handling methods.
- Generalized the code for **3**+ error detection techniques.

Potato disease classification
github ☐

Tasks
- Used tensorflow data object to import the **3** types of classification images.
- Build a CNN model for image-classification and exported optimized model.
- Achieved accuracy of **99%**+ while training and **98%** while testing.

Contact : https://github.com/ishantjain1904/potato-disease-classification

Data cleaning and visualization
github ☐

Tasks
- Successfully Performed data cleaning using SQL queries and Python's pandas Data Frame on Real Covid-19 Data.
- Optimized SQL queries and exported 2 different tables.
- Created a data preprocessing pipeline using Tableau Prep builder

SKILLS

Python for Data science   Java   SQL Server

Tableau   Excel   Power BI   Android studio

Basic R   Data visualization   Power automate

CERTIFICATES

Virtual Experience Program Participant (KPMG) ☐

Querying SQL Server (Udemy) ☐

Tableau Analyst Badge (Tableau) ☐

Python for data science and ML (Udemy) ☐

Intermediate Machine Learning (Kaggle) ☐

Feature engineering (Kaggle) ☐

HACKATHONS

GHF ML Hackathon (03/2021 - 04/2021)
Got All india rank of 438

TVS credit Hackathon (11/2021 - 12/2021)

HPE ML Hackathon (06/2022 - 07/2022)
Qualified two rounds of Hackathon with all india rank of 168

HOBBIES

Cricket   Chess
